|  |  |
|--|--|
| Minimum distance between axles, centre to centre (in cm) |  |
| Minimum tire width (in mm)                               |  |
| Minimum tire load capacity per axle (in kg)              |  |
| Gross axle weight rating (GAWR) for steering (in kg)     |  |
| Stated axle weight in kg (Class 6 only)                  |  |

|   |  |   |
|---|--|---|
| For <b>GR, VO, ML, or SR, RE</b> with more than four axles:<br>Make <input style="width: 80%;" type="text"/> Model <input style="width: 80%;" type="text"/> | Plate no. for Classes 4, 5, 6, 7 and a Class 1 single-trip permit <input style="width: 80%;" type="text"/> | Stated total loaded weight (Class 6 only) <input style="width: 80%;" type="text"/> kg |
|---|--|---|

Driver is aware of weight limits for bridges and overpasses as published by Transport Québec in its listing
  The load or equipment cannot be distributed or divided so as to comply with standards of the Vehicle Load and Size Limits Regulation (O.C. 1299-91)
  Declaration that for tandem, triple and quadruple axles the weight borne by each axle as measured under the wheels has been balanced to the nearest 1000 kg

For a Class 1, 2, 3 or 7 single-trip permit, or a general Class 7 permit with excess in front, give dimensions including load and equipment:

|                 |   |                |   |        |   |       |   |        |   |
|-----------------|---|----------------|---|--------|---|-------|---|--------|---|
| Excess in front | m | Excess in rear | m | Length | m | Width | m | Height | m |
|-----------------|---|----------------|---|--------|---|-------|---|--------|---|

For Class 6 or 7 permit, or a Class 1 single-trip permit, state kind of load:

|   |                 |                |                 |  |                                 |                                      |                                |                                 |
|---|-----------------|----------------|-----------------|--|---------------------------------|--------------------------------------|--------------------------------|---------------------------------|
| For general Class 7 permit load dimensions that render the vehicle oversized: | Length: _____ m | Width: _____ m | Height: _____ m | Excess dimensions, including load and equipment: | Length: from _____ m to _____ m | Excess rear: from _____ m to _____ m | Width: from _____ m to _____ m | Height: from _____ m to _____ m |
|---|-----------------|----------------|-----------------|--|---------------------------------|--------------------------------------|--------------------------------|---------------------------------|

For a Class 6 permit

**To destination:**  empty  loaded      **Return:**  empty  loaded

For a single-trip permit or a Class 6 or 7 permit

**Projected route** (state full address):

address point of origin ▶ \_\_\_\_\_

address destination ▶ \_\_\_\_\_

highway(s) ▶ \_\_\_\_\_
